Hi, Sam.

There appears to be an issue (looks like a typo in the naming convention) that is preventing us from opening one of the Huntsman files, as noted in the attached email. Can you take a look and re-post that file? I appreciate your time in this matter. All the other files appear to be accessible.

Thank you for getting us the information. Should we have any specific questions, we will be reaching out to you.

Fran

Tonya, please upload technical information requested via letter of October 15 to this location.

Please contact either Adina Wiley or Ellen Belk if you would like someone else to access the website or if you run into technical difficulty with the uploads. Thank you for your assistance in this matter.

Jeff,

We are working on putting our information together to get to you. As far as the easiest way for us to get you the information, it is our understanding that EPA is no longer using VPN, is that correct?

Thanks,

Tonya

Tonya and Lourdes,

In our letter signed by David Garcia on October 15th we didn't prescribe a way or location for you to upload or provide us the facility specific information we were requesting. Please let us know what works best for you....we can create an external TEAMS website for you to upload to, or if you want to post to a mailbox for us to access to download information from we're okay with that as well. Thanks.

Jeff
